ABOUT US

FoodArt UK was founded in 2006 with a productive approach to meet the ever-changing demands of consumers nationwide.

Since then, we have been progressing with new knowledge and expertise each day while we continue to grow and meet the desires of our customers.

Situated in London, the capital of ethnic minorities, the expanding FoodArt family work hard to keep innovation as the principle of our company.

Our journey began with our Polish partners, and while those partners remain an important part of our business today, we have grown significantly since then.

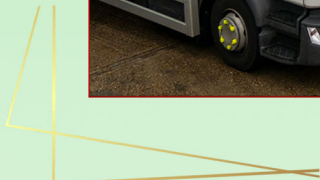

We now have industry-leading partners in Bulgaria, Romania, Turkey, Lithuania, Italy, Spain, and other countries to meet rising demand.

We took an oath to support our suppliers and customers, just as they have done for us over the last 17 years.

Our vision is straightforward:
to be a first-choice business partner, bridging the gap between trusted suppliers and retailers in order to **SAVE MORE and SELL MORE.**
